

The Evolving Mind: Buddhism, Biology, & Consciousness

A study of the evolution of consciousness from the simplest organism, through the self-aware human being, to enlightenment. Viewing recent theories from a Buddhist standpoint, the book sees evolution as a process of perpetual self-transcendence.

The Evolving Mind: Buddhism, Biology and Consciousness Finding the Mind A Buddhist View Robin Cooper (Ratnaprabha) Here am I, The Evolving Mind shows how mind and consciousness have grown through the ages. path allows ones mind to go beyond the limitations of biological evolution. **Evolving Mind: Buddhism, Biology and Consciousness:** Find helpful customer reviews and review ratings for Evolving Mind: Buddhism, Biology and Consciousness at .
