

## Sassmannshaus, Kurt - Early Start on the Viola Book 3 Published by Baerenreiter Verlag

The new English viola method for children 4 years and older. For more than three decades the Sassmannshaus Tradition has been the household name for excellence in beginner string methods in German-speaking countries. More than half a million students have successfully learned to play string instruments using this publication. The publication of the four violin books in 2008 in a fully adapted English version has been a big success. On the back of this success story Baerenreiter published the four books for cello in 2009 and now presents the four books for viola in a newly adapted version for today's English speaking children. What makes this viola method so unique? - Large print notes and texts as well as many colourful illustrations are ideal for pre-school as well as school children. - Note reading is emphasised from the first lesson, encouraging ensemble playing from the very beginning. - Songs and scales in different positions are easily mastered within the first year of playing to ensure that children are not confined to first position playing. - Advanced viola techniques such as varied bow strokes and shifting are introduced in a basic form.
