Here is a heavily illustrated, highly detailed instruction manual for art students seeking professional entry in the fantasy art field. The author guides students from conception of an art idea to publication of the finished work, emphasizing methods for creating magical, mythical, and monstrous characters who inhabit worlds of fantasy and wonder. Next comes advice on visualizing the details in a story concept, with special attention to . . . Costumes, landscapes, and interiors Subjects taken from history and well-known legends Methods of depicting nature that enhance a fantasy atmosphere Creating visually convincing human, animal, and extraterrestrial characters How-to chapters instruct in the details of drawing convincing scenes and characters, using color to create atmosphere, and depicting special effects such as fog and dramatic lighting.
