

Emergency Medicine: Communication in Psychiatric Emergencies (Audio-Digest Foundation Emergency Medicine Continuing Medical Education (CME). Volume 30, Issue 11)

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners physicians and other healthcare professionals with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice. Audio-Digest Emergency Medicine is specifically designed to provide the participant with state-of-the-art information, including, but not limited to, the care of patients presenting to the emergency department in such areas as:

- Airway management
- Asthma
- Bite wounds
- Burns
- Cardiovascular emergencies
- Domestic violence
- Drug abuse
- Envenomations
- Infectious diseases
- Ingested foreign bodies
- Gastrointestinal emergencies
- Psychiatric emergencies
- Risk management
- Pain management
- Poisoning & Toxicology
- Resuscitation
- Sports injuries
- Trauma
