

## Postcards: Images from Perth, and the Islands of Ireland, Barbados and Newfoundland

Our favorite photographs give us a sense of story; the image shows us a single moment within a particular storyline. One of the ways Frank shares his stories is through digital postcards its always a treat to see what he saw, the way he saw it, and read his thoughts whether he writes about the image itself, or what he was supposed to be working on when he was out with his camera.
