

Cancer Of The Stomach, A Clinical Study Of 921 Operatively And Pathologically Demonstrated Cases: With A Chapter On The Surgical Treatment Of Gastric Cancer

This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the worlds literature in affordable, high quality, modern editions that are true to the original work.
