

## Cognition: Exploring the Science of the Mind (Fourth Edition)

Cognition: Exploring the Science of the Mind text and workbook, work together with the ZAPS online labs to engage students in the scientific process and emphasize the relevance of cognitive psychology. The textbook engages students in the scientific process through its integrated treatment of research methods and strong coverage of key experiments. The companion Cognition Workbook contains essays, activities, and demonstrations that focus on the real-world applications of cognitive psychology. The ZAPS Online Labs invite students to experience psychological phenomena and classical experiments in a vivid and engaging environment.
