

Movie Psychopaths: An analysis of the most perverse pathology and its role in the seventh art

Meet Hannibal Lecter, John Kramer, Patrick Bateman, and many other movie psychopaths in a deep and frightening way: through the psychoanalytic analysis of each one of them! The most famous psychopaths from cinema will be examined and diagnosed by a real psychologist, revealing the details behind these villains that Hollywood shows as murderous and monstrous creatures. A vision which, incidentally, contrasts with the reality of psychopathy in our daily lives! The material used to form the corpus of the analysis were 13 films of great international box office success: 1. Saw 2. The Informant! 3. Closer 4. Cape Fear 5. Seven 6. The Silence Of The Lambs 7. Funny Games 8. The Hand That Rocks the Cradle 9. The Good Son 10. Basic Instinct 11. Harry Potter 12. American Psycho 13. The Talented Mr. Ripley Are you ready to discover the most perverse minds of the history of film?
