

Creo Parametric 2.0: Advanced Part Design

As an experienced user in the basics of Creo Parametric 2.0, this training guide enables you to become more productive by extending your modeling abilities with advanced functionality and techniques. This extensive hands-on training guide contains numerous labs and exercises to give you practical experience so that you can improve your job performance. Topics include: Advanced datum features Advanced sweeps Blends and swept blends Designing with rounds Advanced round functionality Drafts Basic surface design Part family tables Advanced feature duplication User-defined features (UDFs) Date sharing Resolving failed features View Manager Automation (appendix)

Prerequisites: It is recommended to complete the following courses, or have the equivalent Creo Parametric experience: Creo Parametric 2.0: Introduction to Solid Modeling - Part 1 Creo Parametric 2.0: Introduction to Solid Modeling - Part 2 Creo Parametric: Core Update, Wildfire 4.0 to Creo Parametric 2.0
